

Uber Gaza

For over 70 days, **the Red Cross has failed to visit any of the hostages** in Hamas captivity in Gaza or provide them with the lifesaving medication they require.

Amongst the 129 remaining hostages are elderly people, sick people, infants and critically-injured individuals.

Every second is critical for saving the lives of the remaining hostages.

The first time any of the hostages have met a representative of the Red Cross is when they drove them out of Gaza.

Red Cross? More like Uber Gaza.
